LX500ec model, featuring a built-in guillotine cutter

The built-in cutter allows you to cut die-cut, reflective and continuous label stock and offers several cut options. You can choose between the cut modes:

- **do not cut** – for usage with a rewinder,

- **cut after no activity** – for cutting when the print job is finished,

- **cut after button press** – for cutting when you choose to press the button,

- **cut after every label** – for producing e.g. single price tags or ID cards,

- **cut after x labels** – which gives you the opportunity to choose the number of labels that needs to stay in one row before cutting.
